## BISON LATHE CHUCKS

Bison has over sixty years experience in the manufacture of lathe chucks. Chucks are available in standard or high precision grade and are made from forged steel or cast iron; All work surfaces are induction hardened and ground ensuring that the finished product is a rugged chuck that meets high sliding, stability, and durability parameters that users expect. The range of Bison chucks includes;

- Plain back and direct mount chucks
- 3,4 and 6 jaw self centering chucks
- 4 jaw independent chucks
- Lathe collet chucks
- Oil country lathe chucks

## BT TOOLHOLDERS

- Collet chucks and collets
- Face mill arbors
- Side lock holders
- Integral drill chucks
- Morse taper arbors
- Quick change tapping adaptors
- Pull studs

## SUPERIOR COOLANT PUMPS

Impellor type coolant pumps are ideal for lathes, drills, milling machines and bandsaws. Suction pumps used for tanks are mounted external to a machine.

COOLANT TANK KITS ALSO AVAILABLE

## AMF HOOK SPANNERS
